We used North Star plumbing to add a gas line access for a backup power generator. Rick and his son did a great job. They were timely and took time to explain the work before doing it. They coordinated with City of McKinney for permit and inspections. They made sure all gas appliances were up and running after the work was completed. Candy did the scheduling and was great to work with. An overall great experience. Will definitely use them again.

These guys were great! I was very pleased with their work! I thought my kitchen sink faucet needed replacing, but it didn't! Brandon cleaned it off, tightened a screw and it was back working! No charge for that! My quoted price for my tub issue was higher than the actual cost! These guys are awesome, they could have took advantage but they didn't! I appreciate their honesty! I will definitely use them again if I have issues! Thea in McKinney 😊

Speedy service and plenty of availability to schedule a last minute appointment. The technicians that visited me were very knowledgeable and friendly. They were honest about water quality and cost of services. Very reasonable pricing and high quality work to back it. Highly recommend this plumbing company!

**Still using this company and had them install an whole house water purifier. They did an excellent job yet again!! Highly recommend this company. Top notch service and care!

They know their job, I'm confident with the quote. Can't wait until they start the project. Job completed and I I happy to have my water turned on. They did a very good job.

We woke up to water coming out of the bottom of the water heater. We call and they told us they could be there between 4 & 6 PM. They called at 4 saying they were in their way, arrived at 4:20 and by 7:30 we had hot water. Great job!!!

We had a frost plug that didn't work and an outside spigot supply pipe froze and split. No issues until today when we went to water plants outside, and we had standing water in our master suite!!

Rick and Brandon came out in a short amount of time, and are absolute professionals! They repaired the spigot, (and checked the other one just the make sure). The repair was done inside an hour, and the pricing was very fair. North Star Plumbing will be our go-to for service, and always a recommendation from us!!

Rick and Brandon were fantastic! Very professional and accommodating to our needs and requests!

This is the second time I have used North Star Plumbing and each time has been the "Best"! Jamie was also very responsive in scheduling and assigning a team!

I highly recommend them!

Top notch work. I've used these guys for many years. They fix it right the first time. Customer service is great too; I once had a water heater spewing water everywhere; they got to me within an hour. They're schedule is flexible. Rick and Brandon are awesome.

North Star Plumbing was awesome! I called them at 2:00 pm I had the good fortune that they had a crew nearby! They arrived in about 20 mins, diagnosed the problem and were finished by 2:45 pm! They were very friendly and reasonably priced. I had another company come out that barely looked at the problem and quoted me 3 times the cost! I am very happy! I definitely recommend them!

Great service! Knowledgeable team offered a solution to fix a gas line with new crimp technology versus an invasive replacement of an under-slab run. Effective, quick, and lower cost - and avoided what could have easily been a challenging replacement.
